

Transforming Your Green “Waste” into a Green Resource – Organic Mulch

What to mulch:

- Tree trimmings
- Shrub trimmings

What **not** to mulch:

- Lumber
- Cactus
- Oleander
- Salt Cedar (Tamarisk)

Salt cedar (tamarix ramosissima), also known as tamarisk, is an invasive tree that should not be mulched.

Questions? Contact Tory Syracuse at 520-396-3266 or tsyracuse@watershedmg.org.

Oleander (Nerium oleander), shown above and below, is a non-native plant that should not be mulched.
